Special Bulletin #8: Directory of AAT Users

Abstract
Several years ago the idea was raised of compiling a users' directory for the Art & Architecture Thesaurus, in order to help the AAT staff understand the types of organizations using the Thesaurus and thus provide effective services to AAT users and respond to their needs. The ultimate goal of the directory was to share, in published form, the information collected among the current users of the AAT, in order to promote networking and the exchange of information. After the publication of the first edition of the AAT in 1990, it was obvious that the number and diversity of AAT users was growing rapidly, but the AAT staff found keeping track of who was using the Thesaurus and how a challenge. Consequently, the idea of compiling a user database was born. This database would contain not only profiles of the various organizations using the AAT but also information on their cataloging and indexing practices.

Keywords
directory, Art and Architecture Thesaurus, list, users, contact information

1995 Visual Resources Association Publications Advisory Committee: Marlene E. Gordon, Chairman, University of Michigan-Dearborn; Eleanor C. Fye, Trinity University; Debra Kruse, Rhode Island School of Design; Alan Miller, Cornish College of the Arts; Marcia Stein, Museum of Fine Arts-Houston; and Ann Vollman-Bible, Metropolitan Museum of Art.

The Art and Architecture Thesaurus (AAT), an operating unit within the Art History Information Program (AHIP) of the J. Paul Getty Trust, addresses the need for a standardized vocabulary of art and architecture terms for use in bibliographic and visual databases and in the documentation of object collections. The AAT is available in print and electronic form.

Directory of AAT Users / 1

Personal Name Index / 71

Organization Name Index / 75

Organization Type Index / 83
Introduction

Several years ago the idea was raised of compiling a users' directory for the *Art & Architecture Thesaurus*, in order to help the *AAT* staff understand the types of organizations using the Thesaurus and thus provide effective services to *AAT* users and respond to their needs. The ultimate goal of the directory was to share, in published form, the information collected among the current users of the *AAT*, in order to promote networking and the exchange of information. The Art and Architecture Thesaurus Advisory Committee of ARLIS/NA, with the help of *AAT* staff, took on initial responsibility for the directory and obtained a research grant from the Society. The grant was used to prepare and carry out a survey from which to draw the data for the directory. The survey was carried out in 1992, and the information gathered has been verified and added to material in the *AAT*'s files.

After the publication of the first edition of the *AAT* in 1990, it was obvious that the number and diversity of *AAT* users was growing rapidly, but the *AAT* staff found keeping track of who was using the Thesaurus and how a challenge. Consequently, the idea of compiling a user database was born. This database would contain not only profiles of the various organizations using the *AAT* but also information on their cataloging and indexing practices. The resulting Directory is international in scope, and includes more than 260 users from the United States and Canada as well as from the United Kingdom, South Africa, Egypt, Romania, and the Netherlands, among other countries. The types of institutions include libraries, museums, visual resources collections, archives, and historical societies; the scope of material being cataloged by these institutions ranges from slides, photographs, and books, to museum objects and archival materials. The Directory is organized alphabetically by geographic location and name of organization. Indexes are provided for personal names (i.e., names of contacts), organization names, and organization types (i.e., library, museum, etc.).

We hope that you will find this Directory a helpful means by which to communicate with other colleagues on how you are using the *Art & Architecture Thesaurus*. We wish to thank ARLIS/NA for its early support of the project as well as everyone who contributed to the survey, and we are grateful to the Visual Resources Association for supporting the publication and distribution of this directory. We want to encourage your ongoing input so that the *AAT* staff may continue to provide effective service to its user community. The user database now resides at the *AAT* office in Williamstown, Massachusetts. New information may be sent to User Directory, *AAT*, 62 Stratton Road, Williamstown, MA 01267; phone: (413) 458-2151, fax: (413) 458-3757, or e-mail: aat@aat.getty.edu.

Chair, ARLIS/NA Art and Architecture Thesaurus Advisory Committee  
1990 - 1992
Guide to Use

Directory Arrangement

The primary listing for each entry (bold type) is the organization name; however, the directory is organized alphabetically first by geographic location and then by name of organization. Geographic sections are arranged first by country, then by province or state, then by city. (The alphabetic arrangement for U.S. states is by postal abbreviation rather than by the full name of the state.) There are some multiple listings of institutions where there is more than one AAT user. In this case, the alphabetic arrangement is first by "department" name and then by "contact" name.

Directory Entries

All known users were contacted by mail to confirm existing data. Many users replied, but those who did not were not excluded. For this reason, some entries contain blank information categories. We apologize for any missing data and, especially, any missing users. The following template explains the information categories:

<table>
<thead>
<tr>
<th>ORGANIZATION NAME, ADDRESS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contact: Name of AAT User</td>
</tr>
<tr>
<td>Phone: Phone Number</td>
</tr>
<tr>
<td>Department/Project:</td>
</tr>
<tr>
<td>Name of user's department, combined with either a sub-department or the project for which the AAT is being utilized.</td>
</tr>
</tbody>
</table>

Collections Information: The following categories refer to the department/project.

- Function: The role of the department, i.e.: library or archive, etc.
- Profile: Subject area of collection.
- Scope: Culture/Period of collection, in broad terms.
- Medium: Type (physical form) of material in collection.

Cataloging Practice

- Collections Management Software: Type of software employed in collections management.
- Cataloging Utilities: CHIN, OCLC, RLIN, UTLAS or WLN, where listed, otherwise the entry is left blank.
- MARC format cataloging: Is MARC format used to catalog collection?
- Submits AAT Candidate Terms: Yes or no; those planning to do so in the future not included.
Indexes

- Personal Name Index offers access to the names of individual AAT users (contacts).
- Organization Name Index provides an alphabetic listing of organizations using the AAT.
- Organization Type Index categorizes organizations by the following:

<table>
<thead>
<tr>
<th>Abstracting and indexing services</th>
<th>Inventories/surveys</th>
</tr>
</thead>
<tbody>
<tr>
<td>Archives and special collections</td>
<td>Libraries</td>
</tr>
<tr>
<td>Consultants</td>
<td>Museums</td>
</tr>
<tr>
<td>Coordinating agencies</td>
<td>Publications</td>
</tr>
<tr>
<td>Graduate schools</td>
<td>Research projects</td>
</tr>
<tr>
<td>Image documentation</td>
<td>Visual resources collections</td>
</tr>
<tr>
<td>Information centers</td>
<td>Vocabulary projects</td>
</tr>
</tbody>
</table>

Many organizations were indexed in several categories, based on the information provided by users in their entries. For example, the visual resources collections category includes photo archive collections as well as art slide collections.

Updating the Directory

The user database is stored at the AAT office and is constantly updated. Please send new information to: User Directory, AAT, 62 Stratton Road, Williamstown, MA. 01267; phone: (413) 458-2151; fax: (413) 458-3757; or e-mail: aat@aat.getty.edu.
